

AMERICAN-MADE
PVC & HDPE CONDUIT

BABA COMPLIANT
UL LISTED PVC & HDPE
MADE IN LOUISIANA SINCE 1985

PVC CONDUIT

Rigid, cost-effective, and the workhorse of telecom and utility installs, our PVC conduit is built for direct burial and concrete-encasement runs.

-  Available in ½"–8"
-  Available in 10' and 20' sticks
-  Type B, C, and D Duct for Telecom
-  Schedule 40 for standard underground & concealed runs
-  Schedule 80 for pathways with high-impact applications
-  UL Listed PVC

HDPE CONDUIT

Our flexible HDPE conduit is the choice for directional drilling and trenchless installs where the pipe needs to bend with the terrain.

Because it ships on continuous reels, you splice less and pull faster across long runs, making multi-mile utility and transmission installations more efficient.

-  Small-diameter HDPE ¾"–1½"
-  Large-diameter HDPE 2"–6" available on reels or in straight lengths
-  Toneable HDPE for locatable installs
-  Multiple wraps available on one reel
-  UL Listed HDPE

MADE TO SPEC. BUILT TO LAST.

40+ YEARS

OF MANUFACTURING CONDUIT

For more than 40 years, OMNI has manufactured the PVC and HDPE conduit that communications, utility, and transportation crews depend on. Every product is engineered, built, and shipped out of our facility in Louisiana, which gives us direct quality control over everything that leaves the plant.

QUALITY YOU CAN TRUST

RELIABILITY YOU CAN DEPEND ON

EASY TO REACH, EASY TO WORK WITH

ONE SOURCE FOR THE WHOLE PROJECT

EXPEDITED PRODUCTION TIMELINES
AVAILABLE ON REQUEST

SAME OMNI, NEW & IMPROVED CAPABILITIES

As we enter our fifth decade, the same team you've worked with for years is now backed by new investment, new leadership, and a renewed commitment to the customers who built this industry. The people you have on speed dial are still here, now with more resources behind them.

BUILDING SOMETHING COMPLEX?

Ask us about our Opti-Com® Multi-Duct and Micro-Com® Micro-Duct systems, engineered for fiber, bridge crossings, and DOT corridor projects.

YOUR **ONE-STOP** SHOP

You need a lot of product to complete the job. With OMNI, you get it all under one roof from a manufacturer that answers the phone, hits the timeline, and stands behind every foot of pipe that leaves the plant.
